◆ Game Introduction An action RPG game for mobile devices developed based on the PvP Fantasy Setting. This game retains many traditional elements from the RPG genre while introducing unique features that support in-depth PvP. An action-oriented VR game for mobile devices is also included as a separate product. ◆ Story In the fantasy world, a peace is established for the first time by uniting all the nation-states as one. This time of peace becomes turbulent when the might of the undead drifts to the surface. The Players are summoned from ordinary life by the king of the neighboring country, with whom they must establish peace for the new nation. ◆ Characters The Player, a savior of humanity, with a mysterious past. The Prince, the savior of humanity, who is on good terms with the Players. The Prince's Son, the savior of humanity, with a rather gloomy personality. The King, the princess' older brother. The Princess, the King's only daughter, with a sweet personality. ◆ Game Mechanics “First-person RPG” is a genre consisting of many

action games. In “Endless Running RPG”, you do not carry items with you, and must go out to obtain everything. In “RPG with a twist,” there is no random encounter, and there are no weapons or magic attacks. “Endless Running RPG” is different from the typical online action game in that it has a campaign consisting of a large amount of quests. Each quest is a mission with a variety of actions, and the number of missions is several hundred.

- **Character Creation:** “Endless Running RPG” allows the Player to freely select a gender, race, class, and appearance, and the statistics are optimized during character creation. The Player can use the character design slot to design the individual characteristics of each character (5 choices per character). The characteristics that you can use include class, race, appearance, voice, and font size.
- **Connection with other Players:** In the game, you can directly connect with other players in three different types of online environments: (1) Standard Multiplayer In a battle zone, you will find many players who will fight against the undead. The Player who defeats a strong opponent, or the one who helps another Player in trouble will increase their friendship with other Players
